

## Be an environmentally conscious purchaser!

- **Choose a play equipment manufacturer that is ISO 14001 certified**
- **When replacing an existing playground structure, contact your local recycling center for recycling options**
- **Specify recyclable materials for your play structures**
- **Upon receipt of your playground, recycle or reuse all packaging materials**
- **Consider recycled surfacing options**
- **Plant trees around your playground to provide natural shade and raise children's awareness of the natural environment**

## HOW YOU CAN HELP!

### Be Environmentally Conscious Daily:

1. Turn off the lights when you leave a room
2. Buy energy-efficient fluorescent light bulbs
3. Recycle at home and at work
4. Use reusable canvas bags when going to the store
5. Whenever possible, walk, ride a bike or carpool

## HOW WE HELP!

Things we do today impact the world tomorrow. Play & Park Structures believes in sustainability and is committed to taking the necessary steps to ensure our children have a safe environment for play!

### Facility & Product Recycling Programs

Play & Park Structures believes that by being mindful of waste we will provide for a greener tomorrow.

- Our facility recycles 100% of scrap metal, rotationally molded plastic, and paper.
- Review our material content information for an outline of products that are recyclable and that contain pre and post-consumer recycled material.
- Our employees are challenged with conserving paper by avoiding unnecessary office printing. Recycle bins for paper, aluminum, cardboard, and plastic are available to help ultimately divert trash from landfills.

### ISO 14001 Certified

Play & Park Structures is proud to be ISO 14001 certified for its manufacturing facility in Fort Payne, Alabama. Also referred to as the "Green Certification," ISO 14001 is an internationally recognized standard for environmental management, measurement, evaluation, and auditing. As an ISO 14001 certified company, Play & Park controls the environmental impact of our activities, products, and services by implementing an Environmental Management System (EMS) that meets international standards, but is specific to the play products being produced. Play & Park Structures received its certification from an SRI Registrar, an accredited registrar that issues quality, environmental, health & safety, and security management system registration certificates based on internationally known standards.

**Playground customers have confirmed that they prefer to use manufacturers such as Play & Park Structures who are environmental responsible.**
